Packing

All solid wood packaging materials/pallets must be treated and stamped in accordance to the ISPM15 regulation. Avoid sending goods in bubble wrap or flimsy cartons as this is not sufficient packing to protect them. We recommend the sturdiest packing you can provide. If necessary, invest in a sturdy, re-usable exhibition-packing crate

Heavy cases should indicate centre of gravity point
Pallets dispatched by airfreight must declare number of cartons per pallet.

Goods for temporary import and permanent import should be packed separately.

Labelling

All packages should be clearly marked with:

Exhibition Name : _____

Name of Exhibitor : _____

Venue: _____

Stand Number : _____

Case Number : _____ of _____

All business is transacted only in accordance with our General Trading Conditions. A copy of these conditions are available via this [LINK](#)

Security

Consignments arriving into the USA are subject to enforced security scrutiny via US Customs. Arrival deadlines and therefore departure dates have been set to allow for most eventualities. Airfreight and LCL cargo can be delivered to the appointed Drayage company's advance warehouse as soon as released by US Customs and most Drayage companies offer 30 days free storage prior to target date but full container loads (FCL) will incur port rent and container demurrage almost without exception. Any consignment selected by US authorities will incur transport and examination costs which must be passed back to the exporter.

Shipper must review all available documentation and determine that none of the cargo being offered in this consignment or consolidation has originated in, transferred from, or transited through any point in Egypt, Somalia, Syria or Yemen."
